

**REMARKS**

Applicants have amended the specification and claims taking into consideration the prosecution in the present application. The specification has been amended to cross reference the parent application of which the present application is a continuation.

The present application is filed with a copy of the original Declaration and a copy of the Amendment under 37 C.F.R. 1.48(b) submitted in the parent application deleting the inventor Yen-Chun Chen as in the parent application.

Also submitted herewith are copies of the Declaration and the Information Disclosure Statement made by the remaining inventors as the present application has been limited to the subject matter of the amended inventorship as in the parent application. The inventorship of the present continuation application is the same as the amended parent inventorship.

Careful consideration of the information submitted in the parent application is most respectfully requested, including the Information Disclosure Statement submitted therein. A copy of the reference cited and the Form-1449 is included herewith for the convenience of the Examiner. Confirmation that the prior art cited in the parent application has been considered in the next Official Action is most respectfully requested.

Divisional of Appl. No. of 10/735,693  
Amendment dated: May 25, 2006

In view of the above comments and further amendments to the specification and claims, it is believed that the application is now in condition for early and favorable examination on the merits.

Respectfully submitted,

BACON & THOMAS, PLLC
